Items discussed

- Crews have 2 areas that need more excavation to clean out, expected completion date. 9/25/2015
- Rain has been delaying excavation.
- Estimated time of sampling sometime by end of week October 2.
- Upon analytical demonstrating compliance with table 910-1, the excavations will be backfilled immediately.
- COGCC Environmental staff, Kris Neidel explained that we will not be approving raw sample data, a report that is "stand alone"-able to clearly be interpreted by a third party is what is required for closure approval.
