General Comments

<u>User Group</u>	<u>Comment</u>	<u>Comment Date</u>
Environmental Data	A review of DWR data on the COGCC website indicates that there are no water features that meet the 100 series rule definition of a water source within the governmental quarter section of the proposed oil and gas well or within any unsampled governmental ¼ section within a ½ mile radius of the proposed oil and gas well. The only well within the 318A.f search area is a monitoring well and is not considered a Potential Water Source under the 100 Series Rules.	9/18/2015 3:23:50 PM
Environmental Data	This Sundry Notice was provided thirty-six (36) days after the well was Spud (8/12/2015). Per Rule 318A.f Sundry Notices requesting exceptions to the rule must be submitted prior to Spud. A NOAV has been issued (Document # 200437259) regarding the late submittal of the exception request.	9/18/2015 3:18:58 PM
