Provide a detailed description of the incident, problem and cause (equipment failure, human error, etc.):
I've been putting up with the noise from the fan that cools the compressors and the noise from the heaters 24/7 for a very long time. A so called noise wall was put up but it's not an acoustical wall which is needed. The wall they put up does not work. As noisy as ever. Plus we were promised that pine trees would be planted around perimeter of site. Has not happened.

Please help me with these issues. OTHER NOTIFICATIONS Thank You, Thomas Newhofs
