Gene,

We are allowing the proposed amended sample schedule with the following changes;

- 2 (two) samples from each pit should be for the full table 910-1
- Remaining samples necessary to adequately characterize no remaining impact may be for BETX and TPH.
- please notify me 72 hrs prior to mobilization for sampling.

This email will be uploaded to the well file and project file.

Dear Kris,

We would like to Request an amended sample schedule for the Chivington pit sampling

We are asking for approval for sampling only the pit bottoms (2 Samples) the full 910-1 soil samples and the remaining site characterization samples to be only TPA and BTEX samples

Thank you

Regrards,

W. Gene Webb
