**WELL ABANDONMENT REPORT**

This form is to be submitted as an Intent to Abandon whenever an abandonment is planned on a borehole. After the abandonment is complete, this form shall again be submitted as a Subsequent Report of the actual work completed. The approved intent shall be valid for six months after the approval date, after that period, a new intent will be required. Attachments required with the Intent to Abandon are wellbore diagrams of the current configuration and the proposed configuration with plugs set. A Subsequent Report of Abandonment shall indicate the actual work completed. Attachments required with a Subsequent Report are a wellbore diagram showing plugs that were set and casing remaining in the hole, the job summaries from all plugging contractors used, including wireline and cementing (third party verification) and any logs that may have been run during abandonment.

### Additional Plugging Information for Subsequent Report Only

Casing Recovered: \_\_\_\_\_ ft. of \_\_\_\_\_ inch casing

Plugging Date: 07/11/1997

\*Wireline Contractor: Unknown

\*Cementing Contractor: Possibly Rippy Sales

Type of Cement and Additives Used: Unknown

Flowline/Pipeline has been abandoned per Rule 1103  Yes  No

\*ATTACH JOB SUMMARY

Technical Detail/Comments:

Correcting COGCC records. This well is believed to have been plugged sometime in 1997. A Subsequent Form 6 is not in the COGCC records nor is there a copy in the files Locin Oil received from the prior operator. We have attached a copy of the approved BLM Sundry Notice of Intent which describes the plugging procedure approved by the BLM. We have also included a copy of the Bid Proposal by Rippy Sales to P&A this well and the Government #2-6 (which was P&Ad according to COGCC records on 7/11/1997). The COGCC inspected the well site on 7/2/2012 Document #668400537 and noted the Final Reclamation and Abandonment had passed.

Based upon the info contined in the files Locin Oil received from the prior operator it does not appear the well was ever completed. There were DST and flow tests of the Weber prior to running the casing.

Request approval and changes to the COGCC records to show this well is P&Ad.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
