1. VALENTINE

Ongoing complaints from June 5, 2005 spill,

- Live waters irrigation ditch
- Notification issues
- Water well impacted – 485 feet from spill, might be wells you sampled
- Nearest residents to spill complained – not Salepich

Ken Valentine
 Sampling from CSU
 SAR
 damage to wildlife – turkeys, large game
 irrigation ditch
 surface water discharge

2. NOAV → Gamma, BMP → ANOM Smith SWCA

3. Pits

Hold pits – send status by mid Feb.

Denied pits – will be inspecting over next several months – should be closed, if open, will be NOAV

Construction

pits built in fill, against regulations and potential safety issue - see Cargo Flran, Chips

Lightening

4. CDPS Permits

400 new outfalls?

Concern over impacts to surface water, long term soil loading
 Management of water prior to discharge in COGCC production pits as individual pit permits – need to be multi well or CWTF – will be reviewing over time.

5. Cawthorne –

- a. Wants discharge directed to his property
- b. Claims tank was supposed to be set for his use

DC ↑

- no mention of tank in agreement
