Subject: RE: State Reportable Release

Hello all,

I am sending an update to the release location noted below. The location I referenced as being approximately 1,700 feet west of the COGIS location is actually tied to the HSR-Redmond 12-21 well and not the HSR-Burchfield 11-21 well (see corrected COGIS information below). The appropriate landowner will still be notified and the correct location will be on the forthcoming Form 19. Apologies for any confusion. Thank you,

Corrected Release Location Information:
HSR-Redmond-63N67W
Location ID: 329337
NWSW-21-3N-67W

Subject: State Reportable Release

Good Afternoon,

We had a State Reportable Release at the location listed below. While removing a partially buried produced water sump at the location, shallow groundwater was encountered. A sample of the shallow groundwater was collected on October, 30 2015. Laboratory analytical results received on November, 2 2015 indicate that the shallow groundwater sample exceeds CGWQS standards. Please note the release location is approximately 1,700 feet west of the location noted in the COGCC COGIS database. Further information will be provided in a forthcoming Form 19 Initial Release Report. Thank you,

HSR-Burchfield -63N67W/21NESW
Location ID: 329345

NESW-21-3N-67W
