Weld County, Colorado

Dear Mr. File,

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned wells at surface locations as noted (see attached Well Location Certificate). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. Rule 318A.c.(1) states:

"A new surface well location shall be approved in accordance with Commission rules when it is less than fifty (50) feet from an existing surface well location."

Rule 318A.c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The HWY52 4A-32H-O268 thru HWY 52 4W-32H-O268 wells were staked at locations southwest of the existing Ray Nelson 33-32 well located in the same quarter section. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A.c. Sincerely,

Encana Oil & Gas (USA) Inc.

Robert J. Bresnahan, RPL, Land Negotiator
