Dear Director:

Please let this letter serve as a request for administrative approval of exception locations for the captioned oil and gas well(s).

Encana Oil & Gas (USA) Inc. proposes to drill the above referenced wells at a surface location further than 50' from an existing well as defined by Rule 318A.c. The closest well will be approximately 300' from the nearest well in the quarter-quarter. A location that would twin our existing wells would put our drill pad on a different owner's land and in a wetland area.

Additionally, the placement of these wells is aligned with the surface owner's future development. Signed waivers of rule 318A.c by the surface owner, John File, are being submitted with this application.

Thank you for your assistance in this matter.

If you have any questions or comments, please contact me at 720-876-5845

Sincerely,

Toby Sachen  
Regulatory Analyst
