Re: COGCC Inspection Corrective Actions
Sarchet 15N-20HZ Well Pad
COGCC Document Number 682400036

Dear Mr. Binschus:

Kerr-McGee Oil and Gas Onshore, LP (Kerr-McGee) submits this response to COGCC Document Number 682400036 regarding the October 29, 2015 inspection at the Sarchet 15N-20HZ well pad (COGCC Location ID 442542).

Kerr-McGee was granted a verbal 45 day extension on November 19, 2015 for the completion of the corrective actions detailed in the subject document. Form 4 Document Number 400954019 was submitted to confirm the extension. All required action items have been completed as of December 17, 2015 as noted in our responses below.

COGCC Action Item

Remove all unused or unneeded equipment and remove straw pile on well pad by Corrective Action date of November 13, 2015. Refer to photos 12 and 13 in Doc. #682400042.

Kerr-McGee Response

The stockpile of straw on the well pad is within the site perimeter stormwater controls. During the November 12, 2015 site visit, COGCC provided Kerr-McGee the option to postpone removal of the straw pile until after interim reclamation commences or to utilize the straw in future production or reclamation operations. The unneeded equipment on the location was removed on November, 12, 2015. To document compliance, Kerr-McGee submitted a Form 42, Document Number 400937123, on November 13, 2015.

COGCC Action Item

Kochia (Kochia sp.) and Russian thistle (Salsola sp.) exists throughout northern location. This is debris and will break off and encroach upon adjacent lands. Remove and dispose of properly by Corrective Action date of November 20, 2015. Refer to photo 11 in Doc. #682400042.

Kerr-McGee Response

The undesirable species, Kochia (Kochia sp.) and Russian thistle (Salsola sp.), located along the perimeter of the well pad were controlled on December 17, 2015 utilizing mechanical means. Mechanical control will aid in preventing encroachment on to adjacent lands.

Feel free to contact me at 970-515-1431 if you have any questions regarding this information.

Sincerely,

Kerr-McGee Oil & Gas Onshore LP

Paul Schwarz
HSE Representative
