Subject: State Reportable Release

Good Morning,

We had a State Reportable Release at the location listed below. The release appears to have originated from two pinholes in the bottom of an oil tank. At this time, we are estimating that at least 5 barrels of oil have been released inside lined containment. We have initiated clean-up response and are assessing the location. Further information will be provided in a forthcoming Form 19 Initial Release Report. Thank you,

Pogg-63N67W/13SENE
Location ID: 331438
SENE-13-3N-67W
