Re: Operator Request Letter to Rule 317.s
Leffler FE 20-062HN
Section 21, Township 6 North, Range 66 West, 6th P.M.
Weld County, Colorado

Dear Director:

Great Western Operating Company is applying for a drilling permit for the above captioned well. As currently planned, the wellbore(s) of the following well(s) will lie within 150 feet of the horizontal lateral of the captioned well: **Leffler Farm 1-21 API# 05-123-11556; Lindblad 20-25X API# 05-123-26734**

Prior to drilling operations, the Operator will perform an anti-collision review of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision review may include MWD or gyro surveys and surface locations of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed well path with its respective error of uncertainty. If current surveys do not exist for the offset wells, Operator may have gyro surveys conducted to verify BHL. The proposed well will only be drilled if the anti-collision review results indicate that the risk of collision is sufficiently low as defined by the anti-collision plan, with separation factors greater than 1.5, or if the risk of collision has been mitigated through other means including shutting in wells, plugging wells, increased drilling fluid in the event of lost returns or as is appropriate for the specific situation. In the event of an increased risk of collision, that risk will be mitigated to prevent harm to people, the environment or property. For the proposed well, upon conclusion of drilling operations, an as-constructed directional survey will be submitted to COGCC with the Form 5.

Rule 317.s of the Colorado Oil and Gas Commission's Rules and Regulations does not allow any portion of a proposed wellbore's treated interval to be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval belonging to another operator without the signed written consent of the operator of the encroached upon wellbore. Great Western Operating Company respectfully requests the Director to accept this Operator Request Letter to allow the above referenced well to be drilled within 150' of the well(s) listed above.

Sincerely,

Allison Linz

Re: Leffler FE 20-062HN
Section 21, Township 6 North, Range 66 West, 6th P.M.
Weld County, Colorado

Dear Sir/Madam:

Great Western Operating Company is applying for a permit to drill the captioned horizontal well. Pursuant to Rule 317.s, the COGCC requires that operators proposing horizontal wells obtain waivers from operators of wells within 150 feet of the proposed horizontal wellbore.

As currently planned, the wellbores of the following well(s) which are operated by Noble Energy Inc lie within 150 feet from the horizontal lateral of the captioned well:

Leffler Farm 1-21 API#: 05-123-11556; Lindblad 20-25X API#: 05-123-26734

If Noble Energy Inc is in agreement to waive the Rule 317.s, please sign in the space provided below and return one original copy to the undersigned.

Respectfully,

Allison Linz

Allison Linz

Great Western Operating Company, LLC

As operator of the above referenced well(s) lying within 150 feet of the wellbore of the above captioned well, Noble Energy Inc hereby waives the one hundred and fifty foot (150,) minimum intra-well distance as specified in COGCC Rule 318A.n.

Accepted and agreed to this 21st day of January 2016

Noble Energy Inc
