NFA for Remediation #4316 ~ Chesnut G 22-6 Tank Battery ~ SWNW 22 – 4N – 65W

Jacob,

The COGCC has reviewed the NFA request for remediation #4316. Based on the information presented, no further action is necessary at this time. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, then further investigation and/or remediation activities may be required at the site.

Please retain a copy of this e-mail as verification of No Further Action required.
