The Operator has reviewed with its staff the importance of reviewing all Conditions of Approval for all wells drilled and has especially stressed the importance of reviewing Conditions of Approval for all wells and pads when multiple pads are located in close proximity. In particular, the Operator will review all logging requirements in a multi-disciplinary pre-drilling pad meeting and the regulatory group will provide regular reports to Drilling and Completions confirming logging requirements.

The Operator will run a Cased Hole Neutron Log in conjunction with CBL Logs prior to completions operations on one well on this pad. The details of this log will be noted on all Form 5As for this pad.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
