Comment: Erosion occurring on north end of location, refer to figure 9 in the attached document.

CA: Install and maintain stormwater erosion and sediment control BMPs to repair and stabilize the erosion, and to prevent further encroachment into the interim area.

**Pits:** ☐ NO SURFACE INDICATION OF PIT

**COGCC Comments**

Comment	User	Date
Interim reclamation in process.  Interim portions on eastern and northern sides of location currently not vegetated. Location appears to have been active 05/2015 and likely had missed the 2015 growing season; Interim areas will need to be vegetated to meet reclamation requirements.  Seeding activities are advised to be completed prior to April 15, 2016.	trujilloam	02/16/2016
