Subject: Synergy Resources SRC Evans 33-26-23-14NHZ Rule 318A.f Sundry Notice Doc# 400990471

Brian,

Please do not use the word “variance” when you seeking exceptions to either Rule 318A.f or Rule 609. Variance means something very specific in the COGCC rules and what you are requesting is not it.

Prior to passing the Sundry your submit comments will need to changed from:

“Variance requested for all production wells associated with location 441696, SRC Evans PAD. One available water source was located and signed landowner access was received. Unable to establish contact with landowner to where on the property the well is located.”

To

“Exceptions requested for all production wells associated with location 441696, SRC Evans PAD. One available water source was located and signed landowner access was received. Unable to establish contact with landowner to where on the property the well is located”.

I can make the change with you approval.

Thanks,

Arthur
