Inspector Comment:

This is an Abandoned Location Inspection for AL Well API#045-14953, a Well Release on an Active Location. Signage at the Location is confused, as AL Well ID sign is on a PR Well, one Well head does not have correct ID Sign(only Pad Information), and Two PR Wells that are in Records to be on Location have no signs. These miss-assignments preclude Releasing the Naugle#PA24-25 Well and trigger this to be an Action Required Inspection. Some of the confusion was caused by the 24-25 Well being Plugged, then redrilled from position of the 33-25 Well, causing Name and API mix-up. Refer to Form 4 Doc#1828211.

Comment: AL Well has evidence of existence as it is assigned a Wellhead; precluding Final Reclamation Release of the Well. Cofusion stems from Plugging 24-25 Well then redrilling from 33-25 position Contact Inspector if Clarification, discussion is needed.

Corrective Action: Remove 045-14953 sign, identify that Wellhead and Wellhead with Location sign as 045-14951 & 045-17989 (two PR Wells on Loc records but not represented by signs on Pad). Date 03/25/2016
