NALCO
NALCO(R) EC7004A
 FLUENT

USE INSTRUCTIONS

1. Mix 1 gallon of concentrate with 100 gallons of water. This mixture can be used to treat 100 gallons of water. For larger volumes, multiply the amount of concentrate by the number of gallons of water to be treated.

2. Add the mixture to the water being treated. Stir well.

3. Allow the water to settle for 24 hours before using.

4. Do not use if the water is cloudy or has a strong odor.

5. Store in a cool, dry place.

6. Do not mix with other chemicals.

7. Do not use if the container is damaged.

8. Do not use if the expiration date has passed.

9. Do not use if the product is expired.

10. Do not use if the product is expired.

11. Do not use if the product is expired.

12. Do not use if the product is expired.
