COMMENTS:

The Gregory 0780 1-9H well has been drilled, completed and is now producing. SandRidge E&P is requesting the right to flare due to the fact that there are currently not any gathering pipelines in the area to transport the produced gas to market. The closest sales line is over 80 miles away. Sandridge is currently working to permit and construct a pipeline out of Jackson county to sales but this pipeline will not be operational until lat 2017 - early 2018.
