County: <u>LINCOLN</u>	
Location: QTRQTR: <u>SENW</u> Sec: <u>21</u> Twp: <u>12S</u> Rng: <u>56W</u> Meridian: <u>6</u>	
	Lat: <u>38.992880</u> Long: <u>-103.677310</u>
Field Name: <u>WILDCAT</u>	Field Number: <u>99999</u>

DESCRIPTION

Provide a detailed description of the accident, problems, and cause (equipment failure, human error, etc.): actions taken to provide well control in detail::

Pumper arrived on location at approx 9:30AM Wellhead and tank battery are at 2 different locations. Drove to wellhead, casing PSI was at 260. He opened the casing valve slightly to bleed PSI through flowline. Stayed at wellhead watching casing gauge to insure it was not dropping too fast.

He then drove to the tank battery and noticed a fire at the combustor. He put the fire out with a fire extinguisher and immediately shut in all valves feeding the treater and combustor. Also went back to the well to shut in the wellhead.

The 1" turbine meter on the oil dump apparently could not dump the oil as fast as it was coming in. The treater overflowed into the gas line to the combustor.

The turbine meter has since been bypassed.

OTHER NOTIFICATIONS

List the parties and agencies notified (LDG, County, BLM EPA, DOT, Local Emergency Planning Coordinator or others)

Date	Agency	Contact	Response
03/18/2016	Limon Sheriff Dept - Notified by Answering Service	Dale Raston	Limon Sheriff Dept phoned Emergency phone # which initiates chain reaction of phone calls and emails notifying the emergency. Fire was dealt with quickly and Fire Dept was notified to stand down.

OPERATOR COMMENTS and SUBMITTAL

Combustor fire at the Knoss 6-21 tank battery 3-18-16
