Hi Jason,

I am writing to request closure of these pit permits. These pits were closed in 2015 and their permits are still showing as active.

We have approved Form 27s on all of these except for Midnight 12-11. That well never produced so the pit was closed as a drilling pit. Let me know if you need anything else to close that one out.

I plan to work backward from there, to make sure all the permits that need to be closed have been closed from the past.

Regards,

LaCretia White, REM, CSEM
