Comment	User	Date
FIR Doc. #682500464 required operator to begin reclamation activities on location. Operator submitted a reclamation plan (401018121) that included details on management strategies, what reclamation activities will take place, and timing of when reclamation will begin on the location. For all intensive purposes, this plan has satisfied the requirements of the CAs from FIR Doc. #682500464 and has changed the interim reclamation status from "fail" to "in process".	trujilloam	04/11/2016
