Spill report taken by:

NEIDEL, KRIS

Spill/Release Point ID:

441949

SPILL/RELEASE REPORT (SUPPLEMENTAL)

This form is to be submitted by the party responsible for the oil and gas spill or release. Any spill or release which may impact waters of the State must be reported as soon as practicable; any spill over 20 bbls must be reported within 24 hours and all spills over five bbls must be reported within ten days. Submit a Site Investigation and Remediation Workplan (Form 27) when requested by the Director.

OPERATOR INFORMATION

Name of Operator: FOUNDATION ENERGY MANAGEMENT LLC	Operator No: 10112	Phone Numbers
Address: 16000 DALLAS PARKWAY #875		Phone: (918) 526-5592

INITIAL SPILL/RELEASE REPORT

Initial Spill/Release Report Doc# 400843349

Initial Report Date: 05/22/2015 Date of Discovery: 04/03/2015 Spill Type: Recent Spill

Spill/Release Point Location:

Location of Spill/Release: QTRQTR SENE SEC 30 TWP 10N RNG 79W MERIDIAN 6

Latitude: 40.812241 Longitude: -106.301789

Municipality (if within municipal boundaries): County: JACKSON

Reference Location:

Facility Type: TANK BATTERY

☐ Facility/Location ID No

☐ No Existing Facility or Location ID No.

☒ Well API No. (Only if the reference facility is well) 05-057-06124

Fluid(s) Spilled/Released (please answer Yes/No):

Was one (1) barrel or more spilled outside of berms or secondary containment? No

Secondary containment, including walls & floor regardless of construction material, must be sufficiently impervious to contain any discharge from primary containment until cleanup occurs.

Were Five (5) barrels or more spilled? No

Estimated Total Spill Volume: use same ranges as others for values

Estimated Oil Spill Volume(bbl): >=1 and <5

Estimated Condensate Spill Volume(bbl): 0

Estimated Flow Back Fluid Spill Volume(bbl): 0

Estimated Produced Water Spill Volume(bbl): 0

Estimated Other E&P Waste Spill Volume(bbl): 0

Estimated Drilling Fluid Spill Volume(bbl): 0

Specify: Estimated approx. 4 bbls of oil spilled within containment

Land Use:

Current Land Use: CROP LAND

Other(Specify):

Weather Condition: Various

Surface Owner: FEE

Other(Specify): Colton Miller- Silver Spur Ranches

Check if impacted or threatened by spill/Release (please answer Yes/No to all that apply):

Waters of the State ☐ Residence/Occupied Structure ☐ Livestock ☐ Public Byway ☐ Surface Water Supply Area ☐

As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

On 4/3/2015, the valve on the treater's interphase broke, causing fluid to spill onto the ground in the treater house. Approximately four (4) barrels of oil spilled, contained within the berms. The treater house was vacuumed out and power washed, the pumper changed valves on the treater and it restarted with no problem. This incident was reported internally on 4/7/15. After initial review, it was determined that this spill was non-reportable per COGCC standards, as it was less than five barrels and was contained by the berms. Per conversation with Alex Fischer and Inspection # 677900073, Foundation is filing a Form 19 to document this release.

List Agencies and Other Parties Notified:

CORRECTIVE ACTIONS

#1	Supplemental Report Date: 04/26/2016
Cause of Spill (Check all that apply) <input type="checkbox"/> Human Error <input checked="" type="checkbox"/> Equipment Failure <input type="checkbox"/> Historical-Unknown	
<input type="checkbox"/> Other (specify) _____	
Describe Incident & Root Cause (include specific equipment and point of failure)	
Valve on treater's interphase broke causing approximately 4 bbls of oil to release from the treater. The heater treater building was vacuumed out, power washed and the valves were changed on the heater treater before it was restarted.	
Describe measures taken to prevent the problem(s) from reoccurring:	
Regular maintenance will occur on the equipment on site to prevent future leaks and spills.	
Volume of Soil Excavated (cubic yards): 0	
Disposition of Excavated Soil (attach documentation) <input type="checkbox"/> Offsite Disposal <input type="checkbox"/> Onsite Treatment	
<input type="checkbox"/> Other (specify) _____	
Volume of Impacted Ground Water Removed (bbls): 0	
Volume of Impacted Surface Water Removed (bbls): 0	

REQUEST FOR CLOSURE

Spill/Release Reports should be closed when impacts have been remediated or when further investigation and corrective actions will take place under an approved Form 27.

Basis for Closure: ☒ Corrective Actions Completed (documentation attached)

☐ Work proceeding under an approved Form 27

Form 27 Remediation Project No: _____

OPERATOR COMMENTS:

See supplemental spill report # 401035767 for manifest tickets and quantity of soil that was remediated. Both spills occurred on the same piece of equipment and affected the same area. All contaminated soil is accounted for on the other spill report to show closure of both spills.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
