Alex: Sorry I didn't get back to you sooner ...been out of the office a lot this week. You are correct, the tank battery that you referenced is not owned or operated by Catamount but is part of Maralex's operation.

Thanks, Craig

Craig A. Reid

Dave,

Catamount filed a Form 2A for the following tank battery which was approved on February 2, 2014. Apparently, this facility was never constructed; however, Maralex has a series of four (4) 300 bbl tanks at the same location of the proposed Catamount Facility. I was on location last week where there was an ongoing release from the northeastern most tank. I contacted Craig Reid and he informed me that this battery is not Catamounts. I then contacted Maralex (Kerry) to inform them on the ongoing release.

Should Catamount file a Form 4 to abandon the location of their 2A?
