---

Bob-

Mustang Resources, LLC (Mustang) has evaluated the need for remediation work to the Federal 5-35 (API#05-081-06818) prior to conversion to UIC. There are no water wells within ¼-mile of the subject well. Additionally, an area of review was conducted as part of Form 31, which determined that production wells in the area have greater than 200 feet of cement over the production zone. Mustang has determined that no remediation work is needed.

Best Regards,
