Subject: Encana MIT compliance plan - Final Agreement
Date: Monday, May 23, 2016 4:08:00 PM

Encana, Peter, and Steven,
 Following is the final list of wells that we have agreed Encana can defer performing the MIT this year and P&A the wells in 2017.

Documentation: I will place this email in the well files and a Remindme in our internal system. Encana will submit a sundry documenting the plan for each of the 13 wells and a Form 6 NOI for each will be submitted. After the Form 6 NOI's expire after 6 months, we will extend the form expiration dates by email correspondence.

Let me know if you have any questions or suggestions for the documentation.

Craig,

Sounds great, we will get to work to line up everything required for the MITs on the Hill 9-15A and DWU CP11D-33 M33. The list of remaining wells to be deferred from 2016 to full abandonment in the 2017 calendar year is listed below. We will work with our internal regulatory team to get all supporting paperwork in for the deferred wells. If there are any discrepancies between the list of wells I have below and the list of wells that you have be sure to let me know so we can work through any issues.

| 2016 Deferred Wells | |

Tanner and Ryan,

We have approval of the compliance plan.

Could you provide a list of the wells agreed on to confirm that we have the same list? I think the DWU CP11D-33 M33 49 API 045-14699 dropped off, Barry Wilkinson emailed me the other day to say they were going to MIT this one.

Thanks.
