

Facility # 116573

JC Donnell 4

JC Donnell 4 was plugged and abandoned on August 31st, 1994 (please see the attached sundry).

Wexpro Company submitted a sundry stating that re-contouring and seeding of the well location had occurred before September 1996 (see the attached sundry). This concludes that pit had to have been backfilled previous to the re-contouring and seeding of the well location. BLM (surface owner) approved the sundry, which would not have occurred had there been a pit present on location.

All of the above mentioned work was completed before December 30, 1997.

Wexpro requests closure and NFA for facility #116573.
