The COGCC has reviewed the above-referenced Form 2A and has identified the following inconsistencies. With your concurrence, the COGCC can make the following changes.

- 1) The COGCC can remove the check for "State" from the floodplains data as the floodplain data as shown on the COGIS map are provided by the FEMA map overlays. **Yes**
- 2) The COGCC can change the distance to the nearest public road appears to 5150 (Highway 380 to the south) from the wellhead. **Yes**

In addition, please verify the following:

- 1) The Submit tab states that the land is "cultivated" but the Land Use states "Rangeland." **Should be Rangeland**

Furthermore, the COGCC has placed the Condition of Approval on the above-referenced Form 2A. **Yes**

- 1) Location lies within proximity to a surface water feature. Operator shall use tertiary containment along the cross- and down-gradient perimeters of the Location.

Thank You
