**COGCC Comments**

Comment	User	Date
Continue to monitor and manage the location until the final reclamation requirements are achieved.	CostaR	06/17/2016
There is undesirable vegetation growing at the north side of the location. There was also desirable vegetation growth noticed within this area. Weed control practices (e.g. mowing) may facilitate desirable vegetation establishment within this area.	CostaR	06/17/2016
There is an area at the center of the location which has little to no vegetation establishment. This area should be reseeded to facilitate vegetation establishment. It is possible that this area may have soil compaction issues preventing establishment.	CostaR	06/17/2016
