Operator Comments:

This sundry is submitted in accordance with the Notice of Alleged Violation issued 6/8/2016, Document # 401047564. The NOAV requests that a sundry be submitted detailing internal procedures that will ensure Form 5s and 5As will be submitted in a complete, accurate, and approvable manner. It also requests the details of internal procedures to ensure in future wells open hole resistivity logs with gamma ray will be run as required.

Black Hills Plateau Production has created a well check list to be kept as a living document in the well file to track each step of the permitting, drilling, and completion regulatory process.

Once a well is approved, the checklist will be tailored to the well's specific COAs so that no step will be missed, such as including the list of required logs.

Also upon approval, Black Hills team members will hold a meeting to review all COAs and the individualized checklist so that all regulatory requirements will be known and duties will be assigned accordingly for reporting.

Please see the attached sample baseline checklist that will be used for a Colorado well with federal minerals.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
