Re: CORRECTIVE ACTION PLAN FOR THE CECILIA DUBOIS PRODUCTION PIT,
SECTION 7-T9N-R52W, LOGAN CO., COLORADO

Dear Mr. Hembre:

This letter is written per your request from our meeting on May 19, 1995. My original letter asked for a proposal of a soil and water study. Your work outline dated April 12, 1995 outlined an aquifer study. I suggest you begin with the soil study and defer the aquifer study. The results of this study should identify any impact your pit may have had to soil and crops.

As before all proposed work must have prior COGCC approval. This new work plan is due on or before June 30, 1995. Please call me if you have any questions. My number is 894-2100, extension 110.

Sincerely,

A handwritten signature in cursive script, appearing to read "Loren E. Avis".

Loren E. Avis, Environmental Protection Specialist
