Linda,

I have inspected the sites listed on the attached spreadsheet. Based on my inspections it appears that vegetation has been well established and all Environmental Department issues have been resolved. However, the Remediations will remain open until the COGCC Reclamation Department has passed final reclamation on the sites.

Wipeking will still need to submit a report for each site documenting reclamation work performed per Form 27 COA #1. Please submit reports to me.

To request closure of the sites please submit a Form 4 Request for Closure with landowner approval letter attached (See Form 27 COA #7). Please work with Aaron Trujillo (copied) when requesting closure.

Please let me know of any questions,

Jason Kosola, P.G.
