RE: I28-2103 WELL PAD FINAL RECLAMATION STATUS

Dear Steven,

Per your request, WestWater biologists have completed vegetation monitoring for the above referenced reclaimed location. We utilized the Bureau of Land Management's (BLM) Assessment, Inventory, and Monitoring (AIM) strategy for data collection and the resulting data has been entered into the Database for Inventory, Monitoring and Assessment (DIMA). In addition to monitoring the reclaimed area we selected and inventoried a reference site for this location.

Attached you will find the results summary and photos of the reclaim and reference areas. Based on the information we collected this year and our understanding of BLM and Colorado Oil & Gas Conservation Commission (COGCC) final reclamation requirements we believe this site meets the criteria to submit Final Abandonment Notice.

If there is any additional information we can provide or clarify please contact me.

Sincerely,

Nicholas Jaramillo  
Environmental Scientist
