RE: City of Greeley's comments on PDC's "High Pointe LLC" COGCC Well Applications  
Township 5 North, Range 67 West, Section 10 & 11  
Weld County, Colorado

Dear Mr. Mueller,

PDC Energy, Inc. ("PDC") wishes to thank the City of Greeley for their time and attention to PDC's permit applications pending with the COGCC for the planned High Pointe wells, and to let the City know how PDC intends to proceed in our permitting process.

PDC intends to follow all of the rules and regulations of the COGCC and the City of Greeley in our permitting process. It is PDC's understanding that after filing for and obtaining approved permits with the COGCC, we would then begin the process of obtaining a USR with the City of Greeley. We appreciate your comments on the referenced permits and intend to address any concerns the City may have when we begin the USR process, and will certainly abide by the best management practices agreed upon in the USR.

Our ability to work together for the mutual benefit of all stakeholders is most appreciated. We look forward to coordinating with you soon to begin the work to obtain a USR once we have obtained our approved COGCC permits. Should you have any other questions or concerns please feel free to contact me (contact information below) or Jeff Hindmarsh at 970-506-9272.

Regards,

J. Tyler Sims, MBA, CPL  
Senior Regional Landman
