Re: COGCC Sample Delivered July 6, 201
Sample ID: BH-Fed-35-2

One sample was collected yesterday and shipped to GAL via overnight Federal Express. This document serves to clarify and correct the requested metals analysis on the Chain of Custody (COC).

The analytical methods listed on the COC for metals analysis were inadvertently recorded as liquid methods (200.7 and 200.8). These should be corrected to SW6010 and SW6020 methods.

Please add Mercury, via method SW7471. Revised COC is attached.

Additionally, the COC requested for GAL to call for metals list to be reported for this sample. This document provides the requested metals list for the sample.

For method SW6010, please report Ba, B, Cr, Cu, Zn, and Ni.
For method SW6020, please report Sb, As, Cd, Pb, Ag, and Se.

Please provide an estimate for sample analysis cost and for anticipated report receipt date.

Please contact me if you have any questions.

Thanks.
