Hi Carlos,

Enjoyed the meeting on Tuesday. Glad you was able to get in and out with no problems.

Today we further excavated the 2-24-81 pit. Lateral and vertical extent of contamination were found. The pit is now clean and contaminated materials are spread on the access end of location. Vertical extent of affected soil was 28'. Sean was supervising the excavation and can tell you more details.

I mailed a Form 1A today that will designate Sean as an agent for NFC. Since he is coordinating and supervising the work for NFC, it is best that he submits the Form 4 with the information you have requested. How long does it typically take to process the Form 1A? If I emailed the Form 1A to you, could you expedite the process? Otherwise, if you would like to have the plan quicker, Sean could probably prepare and email to you instead of e-filing.

Thanks,

Andy Busch

Subject: Re: NFC Hunter Canyon Site Visit Next Tuesday

Andy,

Thanks for taking the time to meet with us on site on Tuesday.

- From Sean's email, I understand that you are planning to continue the excavation on the **HC Fed #2-24-81** pad with a long reach track hoe. When are you starting the work?
- As discussed on site, please submit via e-form 04, an E&P Waste Management Plan, describing the land farming operation. The E&P plan should be short, specific and should include information regarding:
 - Volume to be treated and sketch of the pad with land farm cells
 - Initial analytical concentrations (baseline)
 - thickness of impacted material in the treatment cells
 - Frequency of moving/mixing the soil, watering and additives
 - Storm water management (berms, etc.)
 - Estimated remediation time

I will upload the Plan to the remediation project (**REM #9772**)

Thanks,

Carlos

Carlos,

Just an FYI, we have decided to deploy a long reach trackhoe today. I will let you know how it goes.

Andy,

Sean,

9:30 am will be a better time.

Alex is coming from Denver and Stan and I work in Rifle.

Thanks and have a nice weekend,

Carlos

Carlos,

That will be fine. Andy and I can meet with you Tuesday morning at the Fed 2-24-81 at 8:00.

Thanks. See you then.
