SPILL/RELEASE REPORT (INITIAL)

This form is to be submitted by the party responsible for the oil and gas spill or release. Any spill or release which may impact waters of the State must be reported as soon as practicable; any spill over 20 bbls must be reported within 24 hours and all spills over five bbls must be reported within ten days. Submit a Site Investigation and Remediation Workplan (Form 27) when requested by the Director.

Other(Specify): _____

Check if impacted or threatened by spill/Release (please answer Yes/No to all that apply):

Waters of the State ☒ Residence/Occupied Structure ☐ Livestock ☐ Public Byway ☐ Surface Water Supply Area ☐

As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

We had a spill that was found yesterday 8-26-16 at around 11:45 AM by a vendor on the Filly 44-13 well site(API# 05-071-07478). A lease operator was dispatched to the site and found the lined production pit to be leaking, the level in the pit was over the liner and was seeping through the fill slope. The operator isolated the well from the pit and dispatched water trucks to lower the level in the pit. It is estimated that 65bbbls of produced water were spilled. The spill ran to the west and entered a dry drainage that was considered waters of the state with no live water. A call was made to the CDPHE spill hotline.
