## Re: Bernhardt 18-32 Groundwater Report and No Further Action Request; Remediation # 9419

Gintautas - DNR, Peter <peter.gintautas@state.co.us>  
To: Jacob Evans <Jacob.Evans@nblenergy.com>

Fri, Sep 9, 2016 at 2:05 PM

Jacob, the remediation project has been marked as closed in the COGCC database.

Based on review of the information submitted it appears that no further action is necessary at this time. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, further investigation and/or remediation activities may be required at the site.

Status of reclamation is subject to final reclamation review and inspection before final closure of the tank battery site.

Peter
