Ms. Fanning,

COGCC is in receipt of a diagram (attached) depicting 3 proposed soil sampling locations that was provided to Director Matt Lepore by your client's counsel, David Neslin. COGCC is providing this notice that the proposed soil boring locations (SB-09, SB-10, SB-11) are an appropriate next step towards the fulfillment of the approved Form 27, Site Investigation and Remediation Workplan (Document #2526393). COGCC requests that you notify Chris Canfield of your proposed schedule as soon as you know it, so that COGCC may be present during the investigation activities.

Thank you.

Greg
