KEC Operator #49100

Ms. Ramos,

We are in receipt of Warning Letter #2560597 which states a \$50,000 surface facility bond is required under Rule 712 to operate a Commercial Underground Injection well. However, as we discussed on the telephone, the WRD Unit #29-33 WDW is not a commercial injection well so no bond is required under Rule 712. If you would please correct your records to show that the well is a non-commercial injection well and that the only water disposed of in this well is water produced from wells operated by Koch Exploration Company, LLC.

Thank you for your help and guidance in this matter.

Sincerely,

Douglas Howard
