Reclamation - Storm Water - Pit

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Waddles						Straw bales and wattles installed.

Comment: Wattles were installed along the western perimeter to control sedimentation from leaving location. Wattle installation has some potential weak spots because areas were not properly backfilled and compacted. Straw bales were installed along the access road to control sedimentation from leaving the access road. BMPs need to be maintained.

Refer to attached photos in Document #682401301.
