Richard- Only clean fill material shall be used to backfill the pit. Debris and trash will constitute a solid waste landfill which will not be allowed. Solid waste landfills are permitted through the County and Colorado Department of Environmental Health (CDPHE) Solid and Hazardous Waste.

Kris,

Some of the fill dirt that Wild West hauled and placed on our Chivington location contains debris and trash.

Will you please look at it and see if it is OK to use for backfill in the reserve pit?
