Description

Operator Comments:

Edge Energy LLC, respectfully requests "Confidential Status" for the Flaherty 18-7-10NBH API: 05-123-42435 well that is currently being drilled. The well is being drilled as a monobore with a water based mud system. Edge Energy expects the monobore drilling program to produce a unique production profile. Other than the previously drilled Flaherty well on this same pad, the closest known well drilled to the same bench with a similar drilling program is a PDC well over 8 miles away.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
