Environmental	Analytical results from composite samples indicate that landfarmed impacted soil is now in compliance with COGCC Rules (within Table 910-1 values). Approval has been given to backfill the pit, task that has been completed by now. Pit Facility #119445 status has been changed to CLOSED. Remediation Project REM #9772 has been closed as well. Final Reclamation is pending.	11/16/2016
Reclamation Specialist	Approval of the form 4 acknowledges that the Oil and Gas Conservation Commission has received the Notice. It is not an acknowledgement that the reclamation has been passed. This is a Federal mineral Federal surface location therefore COGCC will not be releasing the final surface reclamation. Passing on to Environmental Department	11/09/2016
