OIL AND GAS CONSERVATION  
COMMISSION OF THE  
STATE OF COLORADO

PUBLIC NOTICE  
OF  
PROPOSED UNDERGROUND INJECTION  
CONTROL PERMIT

**PURPOSE OF PUBLIC NOTICE:**

The purpose of this notice is to solicit public comment on the Federal #5-35 disposal well, a Class II injection permit submitted by Mustang Resources LLC. The Federal #5-35 disposal well was drilled at a location 1,943 feet from south line and 2,021 feet from east line NWSE Section 35, Township 9 North, Range 91 West, in Moffat County, Colorado.

**BACKGROUND**

Class II injection wells are permitted and regulated in such a manner as to prevent the contamination of underground sources of drinking water and to ensure fluid emplacement and confinement within the permitted injection zones. Class II injection wells are permitted to inject waste generated from oil and gas exploratory and production operations. Mustang Resources LLC has proposed to inject these fluids into the Lewis Formation in the Federal #5-35 well through perforations at depths of approximately 5,230-5,251 feet.

Public comments are encouraged and will be accepted, in writing at the Commission for a period of thirty (30) days after publication of this notice. If any data, information, or arguments submitted during the public comment period appear to raise substantial questions concerning proposed injection well permit, the Director may request that the Commission hold a hearing on the matter.

Additional information on the operation of the proposed injection well may be obtained at the Commission office.
