General Comments

<u>User Group</u>	<u>Comment</u>	<u>Comment Date</u>
Environmental	Based on the information presented, it appears that no further action is necessary at this time and the COGCC approves the closure request. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be impacted, then further investigation and/or remediation activities may be required. In addition, the surface area disturbed by the remediation activity shall be reclaimed in accordance with the 1000 Series Reclamation Rules.	11/22/2016
Reclamation Specialist	Passing task to Environmental. Pit closure appears to be subject of Form. This is a Federal mineral Federal surface location therefore COGCC will not be releasing the final surface reclamation.	10/15/2016
