COGCC Comments		
Comment	User	Date
A follow up inspection will be performed to verify vegetation establishment in areas that were seeded.	CostaR	11/17/2016
The noxious weeds found along the northwest side of the location had produced seed and have died off for the season. There was not many weeds noticed however more may establish in the following growing season. Weed control practices will need to occur during the following growing season.	CostaR	11/18/2016
