Kerry,

RE: Calf Canyon Spill

Location ID: 322331

Spill Point ID #448285

Please find attached the approved/signed Form 27 for the remediation of the Calf Canyon spill. I am currently in the Rifle office and available to go onsite any day of this week. Please let Jim Byers and myself know as soon as possible what day of the week Maralex is scheduling the excavation.

Note: Don't forget the COA #2 on inspection # 671000486, dated 11/09/2016 (not required at this point).

*"2) Per Rule 1003.b. close Pit Facility 111193 with an approved Form 27 Site Assessment and Remediation Work Plan . CA date will be 6 months from submitting the INSP report."*

Thanks,

Carlos

Apologies Sean,

I thought you were attached to the email below.

This is the email thread I will use to communicate any changes to the anticipated schedule. Truly hoping the work can continue as planned, pending weather and other coordinating factors.

Have a great day gentlemen,

**Kerry Tahmahkera**

Hello Carlos,

I have attached the Form 27 below for you to upload. Please note that additional information regarding the IMPLEMENTATION SCHEDULE is listed directly above the Implementation Schedule Section on Page 2, which specifies the week of December 5th as the anticipated start for excavation/remediation. If you have any questions please feel free to contact me directly. Sean Norris is included in this email and we will keep you apprised of updates/changes to the anticipated schedule.

Thank you,

**Kerry Tahmahkera**

Kerry,

This is a reminder that the Form 27 is due today. Failure to submit it today constitutes a violation of COGCC Rules and Regulations. On the other hand, I strongly recommend that Maralex starts the excavation of impacted soil ASAP to minimize disturbance and the risk of impacting groundwater if the work is not completed this year. Needless to say, remediation costs would increase substantially.

I will be in the Rifle office on Monday, Dec 05, 2016.

Thanks,  
Carlos
