223747	WELL	SI	02/15/2014	ERIW	083-05147	CACHE UNIT 8	SI

**General Comment:**

Purpose of inspection was to verify current status at well. Inspection does not alleviate requirement to complete requirements of open corrective actions and overall status will remain the same. At the time of inspection there is no visible evidence on BOP and area around wellhead that indicate any additional release of fluids. Berming around wellhead is in tack with trench to plugging pit still in place. Overall conditions at location remain unchanged with no evidence of any additional work being performed.
