Dear Mr. Mah,

I would like to give you an update on the steps that Lilis Energy has taken to comply with the notices in the above letter. First, Lilis has filed all of the Form 7's in which it was delinquent. So that has been settled completely.

Secondly, Lilis has hired an engineer to review the well files with the intent of being able to file a Form 6 to plug the Coggins well. We are expecting the engineer to begin work this week. Once he gets onsite and reviews the file we will ask him for a recommendation on the length of time of filing. I will inform you when that expected filing should take place.

Best regards,

Kent Harmony
